**SECRET**ARCHANGEL [REDACTED]

25X1

1. Saw Mill Number 2

25X1 [REDACTED]

B. There is a small electrical pumping works on the north side of the docks. A tugboat with two barges arrived at the dock twice a day. The water is brought into the saw mill from the pumping works in tanks, which are pulled by horses. When the captain asked where one could get some drinking water he was told that this could be taken from the river.

C. Between the dock and the rest of the saw mill there is a small first aid station. This is well provided and when the source inspected the place there was a woman doctor on guard.

2. Saw Mill Number 25

25X1 [REDACTED]

3. Sulphate Factory

A. There is a sulphate factory directly north of saw mill number 25 on Colombala Island at position 64 degrees 38 minutes 9 seconds north and 40 degrees 31 minutes 18 seconds east.

B. The factory is in operation.

4. Prisoners - Archangel

25X1

A. On the road to the Inflat office in Archangel [REDACTED] two platoons of male prisoners marching through the streets.

B. Each platoon consisted of about 30 prisoners who were guarded by armed soldiers.

C. The age of the prisoners <sup>varied</sup> from that of boys to that of old men (boys about 12 years old).
